TRAP it

DEDICATED TRAPPING BALLOON CATHETER

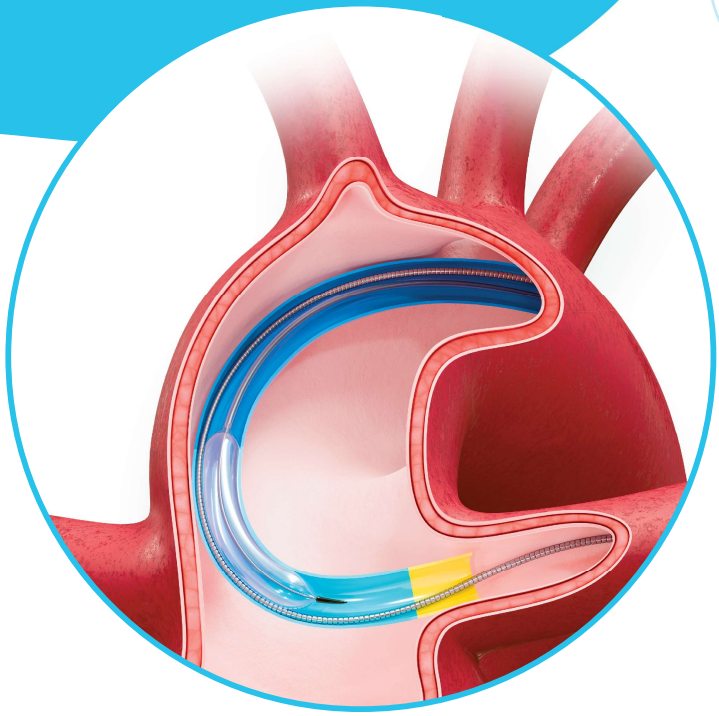

Enabling OTW Workflow in 6F

IMDS

Microcatheter Exchange Shouldn't Compromise Safety & Efficiency

Existing trapping solutions are not designed to reliably support a wide range of microcatheters in 6F - often requiring upsizing and compromising efficiency, control, and radial access.

Aditionally, the use of non-dedicated tools, such as PTCA balloons (off-label use), may introduce additional risks, including device migration and loss of guidewire position.

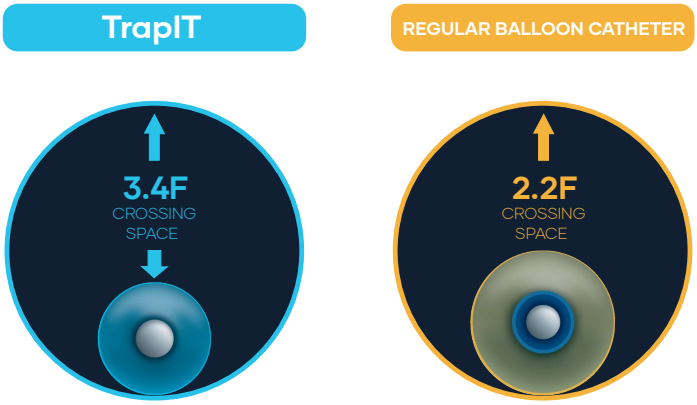

TRAP it

Smallest Crossing Profile. Maximum 6F Performance.

Provides 1.2F more crossing space for high-force, reliable trapping - enabling efficient exchange and full microcatheter compatibility in 6F workflows.[1]

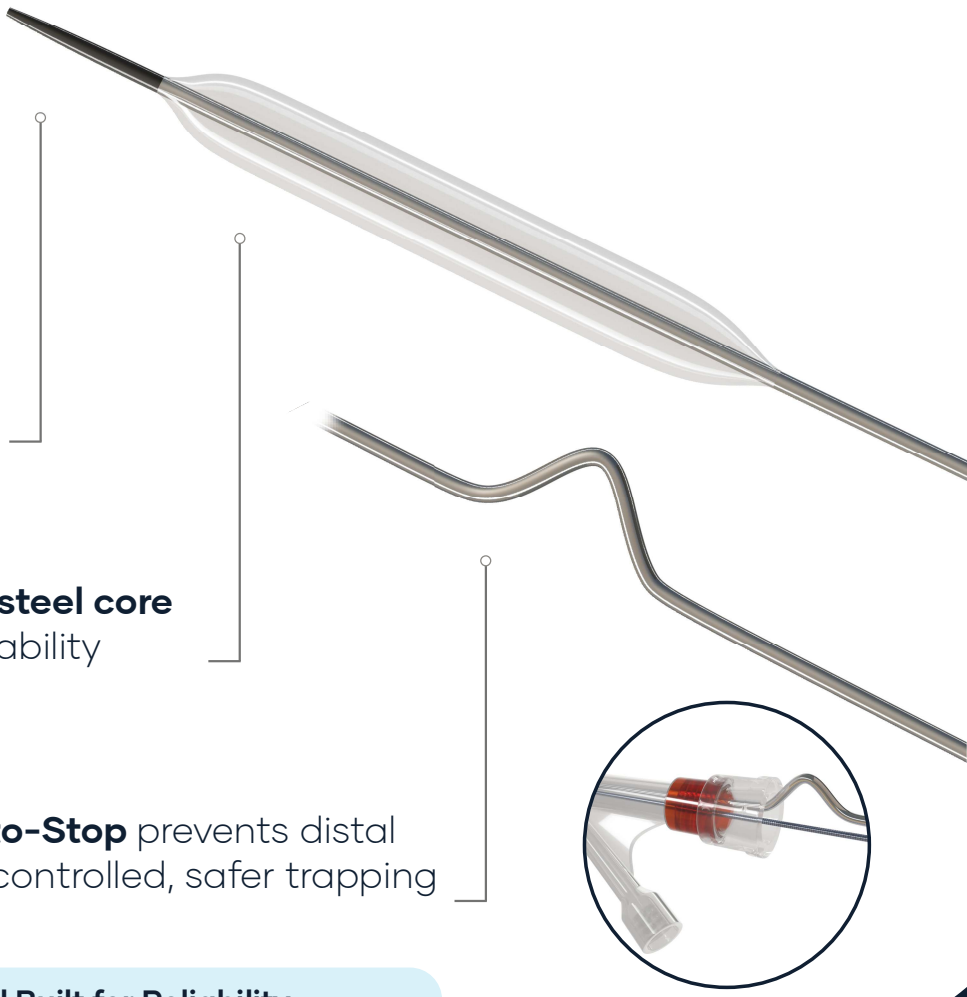

55%

Crossing Space

1. IMDS Data on File

The New Standard in Trapping Performance

True distal radiopaque tip
ensures precise visibility

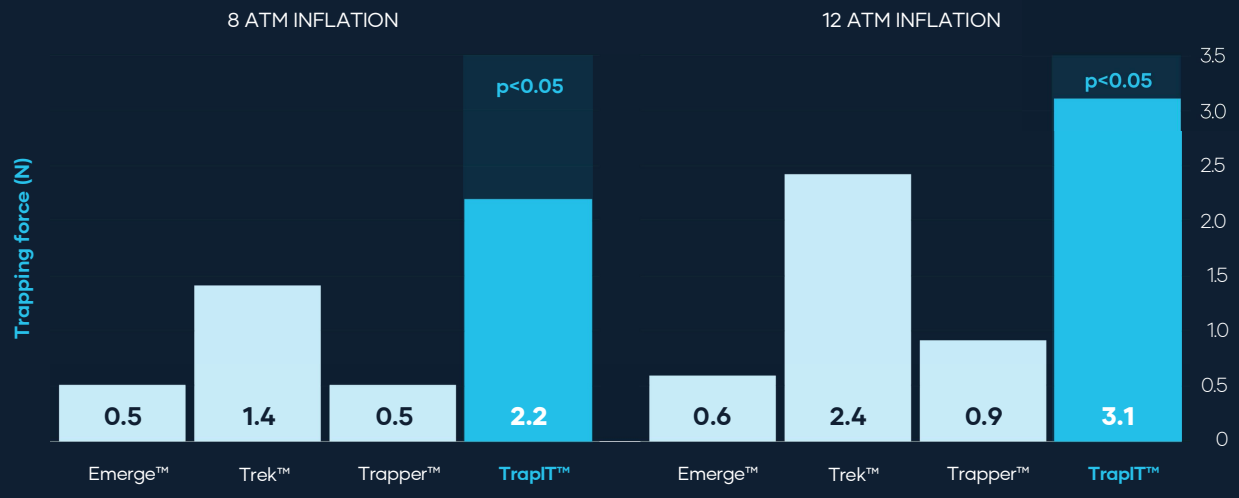

Continuous stainless-steel core
enables superior crossability

Patented Auto-Stop prevents distal insertion, for controlled, safer trapping

Designed and Built for Reliability.
Engineered to resist fatigue and maintain high structural integrity across repeated use.[2]

TrapIT Delivers the Most Reliable Guidewire Trapping[3]

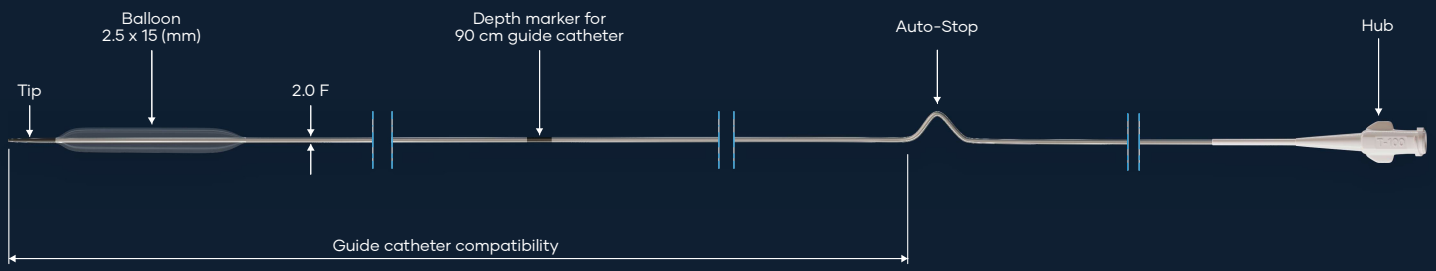

Highest Trapping Force vs Leading Balloons

Simplify Everyday Complexity

Routine cases can quickly become complex.
IMDS delivers precision-engineered solutions built around intuitive workflows - making PCI more efficient, safe, and reliable.

Designed for Device Compatibility

TRAP it

Designed to seamlessly work with FlowGuide, NHanceIT, ReCross, and NHancer Rx, TrapIT enables true 6F OTW capability - supporting efficient, controlled microcatheter exchange while preserving wire position.

Model	Balloon OD At Nominal	Shaft OD	Balloon Length	Guide Catheter Compatibility
TRP9015 (T-90)	2.5 mm	2.0F (0.66 mm)	15 mm	90 cm
TRP10015 (T-100)	2.5 mm	2.0F (0.66 mm)	15 mm	100 cm

CE conformity assessed by DEKRA (NB0344) © IMDS 2026

Device Name: TrapIT Trapping Balloon Catheter

Please see the Instructions for Use for a complete listing of the indications, contraindications, warnings and precautions.
Caution: Federal Law (U.S.) restricts this device to sale by or on the order of a physician. TrapIT™ is a trademark of IMDS.
